

JOIN THE AMERICAN METEOROLOGICAL SOCIETY!

AMS members are on the cutting edge of research in atmospheric physics, air-sea interaction, hydrology, aerosol-cloud-climate interactions, Lidar and radar atmospheric applications, tropical cyclones, mesoscale processes, space weather, and much more. By joining AMS, you'll be part of a vibrant community of over 12,000 researchers, students, educators, communicators, and many others who advance knowledge and innovation in weather, water, and climate science for the good of our planet and the people who live here.

Your AMS Membership includes:

- Discounts on meeting registrations, including the annual AMS Student Conference
- Access to the AMS Online Career Center and Career Advising Portal
- Subscriptions to the BAMS magazine, News You Can Use, and AMS newsletters
- Complimentary access to AMS Journals Online
- Access to the AMS Community and AMS Weather Band platforms, where you can connect with fellow AMS members and weather enthusiasts
- Members-only access to webinar recordings

Select AMS as one of your professional memberships through SPS! Or visit amet soc.org/membership for more information
